Address of Governor Alvord to the

Carcus Seminations-Address by the Mon Lymnn Tremain - Small Attendance

The Union cancus was held to night at the Assembly Chamber the result of which will reach you by tele-graph. The tribute to Judge Tremain was made com-plete by Mr. Haskins moving his unanimous nomina-tion which is

formed faithfully the duties of an American citizen, the cheering treke out in continued rounds, showing how express had been the popular sympathy and admiration which was impatient to invest him with official honors.

The rash of the phoeseckers is immense, and I am sure if the Westiminister Cateclism had been written at a late day, "the chief end of man," would have received a different definition. It now seems to be in our country, "to get office and note it forever," There are apparently a hundred applicants for every place, and beade the soldlers, with fractional legs and arms, there are one thousand others, "who have signax been as tree as steel," "who are sound on the goose," and "who you right every time, and can always be depended on," as a reward for which they and their friends mk appointments for them. Messirs, Terwilliger and Canking are besset by such a host of these that they had a leg the rash of auxiliars applicants for place.
